

The Peachey Difference

Shop around and you'll find there are lots of options for hardwood floors. But look closer, and you'll start to see what sets hardwood floors apart. Why floors that are "good enough" are anything but, and actual quality lies in the craftsmanship that defines long lasting performance and beauty.

At Peachey, this difference begins by harvesting the best trees from America's greatest hardwood forests. Sourcing 90% of our lumber from local Amish mills and working with those mills to create custom cuts, then slow-drying each hand selected board before they finish in our kilns to ensure greater stability throughout the changing seasons.

Once dried, we precisely mill our flooring for an exact fit board after board, then finish each order with unique stains and distressing to hand craft premium heirloom flooring and more affordable selections designed to stand up to the everyday wear of busy families and businesses.

At Peachey, we understand this isn't the way all hardwood floors are created, but here, this is no substitute for doing things right. That's why we stand behind every board we craft with the Peachey Promise - our guarantee of quality, service, beauty and performance.

We invite you to discover the Peachey difference.

Visit our showroom to view over 70 samples of unique custom flooring.

CUSTOM WORK. UNCOMPROMISING QUALITY.

For customers across the country, we hand craft flooring to the highest standards, using time-tested skills and old-world techniques to transform houses into unforgettable homes. We proudly make everything we sell with average lead times of just 2-4 weeks and guarantee on-time delivery to sites here in Pennsylvania or anywhere you call home.

When you dream of the perfect flooring for your home, what color do you dream of?

From brighter, natural selections, to richer, dark tones, the color you choose for your premium hardwood flooring helps to define the overall look of the space and set the mood of the entire room. At Peachey, we offer nearly endless color options and the added ability to create unique custom colors to help you define your space beautifully and set the perfect mood in every room of your home.
